OUR SERVICE

The handling of funds is the basic function of a bank, but that in itself does not measure up to the service factors that a bank of today should assume. This bank realizes the full depth of its obligation, and accordingly has surrounded itself with officers and department heads who are competent to extend sound, conservative advice on such of your business problems as you may desire to entrust.

CENTURY LIONS CLUB HAVE GREAT BANQUET

REV. B. N. SHEPHERD DECLINES PASTORATE

A report from Rev. B. N. Shepherd of Tahoka, Texas, in which he declined to accept the call to the pastor of the Baptist Church here, was announced to the congregation last Sunday morning. Rev. Shepherd, among other things expressed a willingness and an urgent feeling to accept the offer, but stated that he had undertaken such great work at Tahoka, the completion of a large Baptist church at that place, that he could not without undergoing a great sacrifice to himself and the congregation conveniently leave that post at this time.

In another letter received by J. E. Henkel, church secretary, Wednesday of this week, Rev. Hill stated that he had decided to accept the call and would move here with his family in about two weeks.

The greatest meeting, from a view of interest manifested, number of attendants and entertaining features ever recorded by the local Lions Club since its organization marked the occasion of the venison banquet given at the Presbyterian church Tuesday night of this week. It was a banner meeting and immensely enjoyed by all present. Besides the members of the local organization there were present two hundred invited guests, about 150 being prominent representatives of the Lions Clubs of the surrounding cities, augmented by a large and notably entertaining special party from Fort Worth. As a publicity and get-acquainted feature this meeting will be of inestimable benefit to Cross Plains. The main streets were brilliantly illuminated with electric lights of varied colors, reflecting an artistically inviting welcome to the visitors. At the intersection of the streets and forming the approach to the banquet hall was an electrically lighted angle signaling the way of entrance. Besides the enjoyment of the feast composed of fine venison and other relishable viands prepared by the ladies of the Presbyterian church, the whole meeting was one of enthusiasm and entertaining features from start to finish. The Cross Plains Lions is a live bunch and do things in a great way.

Your Own Home

At Thanksgiving time, when home folks are going home, and families gather about the firesides, it makes each one who is not a home owner yearn for a home of his own. Owning your own home is but a matter of careful planning. It is our service to aid you in owning your own home.

LET US TALK IT OVER

SHERWIN-WILLIAMS PAINTS FOR EVERY PURPOSE

CROSS PLAINS LUMBER COMPANY

Phone 18

S. R. Jackson, Mgr

HIGGINBOTHAM CLOSING OUT GRO. DEPT.

announce this week the closing out of the grocery departments in their stores at Cross Plains and Rising Star. These departments, we are informed, will be discontinued permanently as soon as they can dispose of the large stocks of groceries which they now have on hand. The space occupied by the grocery departments will be utilized for increasing other lines of goods which they handle in big stores. See their announcement in this issue of the Review.

COTTON GINNED IN CALLAHAN COUNTY

Ben. L. Russell, county agent of the Department of Commerce, reports to the Review that there had been 8,901 bales ginned in Callahan county prior to Nov. 14, as compared with 7,742 for the same period last year.

The local gins report to date as follows: Cross Plains Gin Company, 1046; Moss Gin Company, 658.

FIRE DAMAGES HELPY-SELFY AT COLEMAN

Friday night of last week, fire which originated in the rear or market section of the Helpy-Selfy at Coleman did considerable damage to a part of the stock and fixtures. The Helpy-Selfy store at Coleman is owned and operated by McGowan Sons & Barnes. The fire was discovered about 3 o'clock in the morning and its origin is not definitely known but is believed to have been caused by defective wiring. The extent of the damages has not been reported, but it is believed by the head of the firm here, if not too great, is amply protected by insurance.

We are informed that a gin was destroyed by fire in Coleman the same night.

Mrs. M. C. Clark of Cross Cut is visiting her son Jeff Clark.

Miss Pauline Miller, who is attending school at Abilene, was a Cross Plains visitor, over week end.

Miss Vera Baker of Burkett was the guest of her sister Alma King Saturday.

LIFTS MORTGAGAGE ON FARM WITH TURKEYS

B. W. Watson bought a cross timbered farm west of Whitesboro last January, consisting of 75 acres at \$15 per acre, all on time. This week Watson sold 150 turkeys, which brought him more than enough money to pay for his land.

He says that he is thoroughly convinced that raising turkeys is far more profitable than raising cotton, as previous to this time he had spent 40 years raising cotton and never was able to buy a farm.

THANKSGIVING SUPPER BY I. O. O. F. LODGE

The Cross Plains I. O. O. F. Lodge will have their annual Thanksgiving supper on Friday night, Nov. 30th, at the local hall. It will be similar to the recent Lion Club banquet in the way of relishable eats, two fine deer being on cold storage awaiting the occasion. All the local members and their families, including a number of invited guests, will be present for the bounteous feast and to enjoy the entertaining features of the meeting.

RESOLUTION

Whereas, God in His infinite wisdom has seen fit to call to her heavenly home our beloved sister, Mrs. Jack Breeding.

Be it resolved, that while we will miss her sweet presence we will not mourn as those who have no hope. The age and shutin will miss her timid knock at her door, and joyous young children will listen in vain for her footsteps; as to her sister workers in the church, God alone knows how she will be missed. We count it a sacred privilege to have known her, and pray as she lays life's burdens down others will be constrained to take up the cross she was bearing, and help bring the lost to Jesus.

Be it further resolved, that a copy of these resolutions be sent to the family and to the local newspaper.

Com. Baptist Church.
Mrs. J. E. HENKEL.
Mrs. A. J. MATHIS.
Mrs. HENRRY WILLIAMS

Beginning on the night of Dec. the 3rd, a singing school will be conducted at the Church of Christ, by Rev. Jim Head, every come, no charges.

CROSS PLAINS AND ITS ORGANIZATIONS

Cross Plains is a town of organizations, each serving its individual and most creditable purpose. This purpose when viewed from a standpoint of identity is practically the same all striving for the general welfare and advancement of the christian, moral and material conditions of the town and community. Its churches, schools, lodges and clubs, and the auxiliaries to all these organizations are up to the common standard and reaching higher planes with the close of each year. They are all serving a purpose, and serving it well.

The charge is sometimes made that communities are "over-organized." The phrase "organized to death" is a common one. And in somewhat laconic tones it has been said that "everything is organized but the community itself." We believe there are truths in these statements, but we believe that any organization that stands the test of time is worthy of sympathetic consideration. Undoubtedly each organization in Cross Plains, whether civic, social, fraternal, charitable or religious, fills a need. The fault has not been so much the fact of too many organizations, or duplications of effort, if there has been any trouble at all. In the councils and workings of our organizations, and in the lists of members, there are wholesome and worthy motives, and sincere hard-working citizens. With the proper functioning of all organizations with these combined purposes in view the community will continue to go forward and the cause for which people are grouped will be met efficiently. During the year 1928 we have not found cause for complaint, nor have we heard but very little in Cross Plains, and with continued effort along proper lines we predict that 1929 has a still greater town and community in store for us.

ROLLS PEANUT 11 MILES WITH NOSE

Harlingen.—To the strains of "The Conquering Hero Comes," from a bass band, Bill Williams Thursday ended his 11-mile-peanut pushing trek when he rolled a goober with his nose across a white line marking the Harlingen city limits.

Williams, when he crossed that white mark, had paid an election bet on Governor Alfred E. Smith, and in the process had tossed countless pairs of frayed cotton gloves and innumerable worn out peanuts into the discard.

His nose resembled a strawberry, but he nevertheless had fulfilled his bet by rolling the goober the 11 miles from Rio Hondo to Harlingen in less than 11 days, his expired time having been nine and a half days.

DE LEON GIRLS KILLED IN AUTO CRASH

DE LEON.—The second fatality in an automobile accident near De Leon Friday afternoon occurred Friday night when Miss Eva Davis, 16, died in a Gorman sanitarium. Miss Mozelle Watson, 15 was instantly killed in the accident and Miss Vay Hodges was seriously injured.

The three, with four other pupils of the Comyn High School were returning from Gustine, where they had won a basket ball game, when their automobile, driven by Blake Morrison, 14, overturned as he attempted to pass a truck.

Miss Neva Davis, twin sister of one of the girls killed, was also in the car but escaped serious injury. The others in the car also were only slightly hurt.

The six girls in the car were all in basket ball uniform. They had won a game with a much dreaded rival, Gustine, and several cars were rushing home to see which would first arrive with the news of the victory.

Mrs. Geo. Scott was a Baird visitor a few days last week.

FATAL AUTO WRECK NEAR RISING STAR

Two men are dead and another is suffering serious injuries as a result of an auto. wreck which occurred on the Rising Star-Cisco highway, about five miles from the latter place, at 8 o'clock last Monday night. The two dead parties were named Evans and Spate but we were unable to learn their given names. One was killed instantly and the other lingered until Tuesday evening. The three men were traveling the highway in a large truck, which crashed into a storage tank loaded on a wagon, left standing on the road.

Mr. and Mrs. Clyde Durringer spent Sunday in Cisco.

Jeff Clark and family spent Sunday afternoon in Cross Cut with relatives.

Mr. and Mrs. Fred Cutbirth and Rosalea will spend the Thanksgiving holiday in Fort Worth.

E. D. Priest and Dr. McGowan, were Coleman visitors over week end.

Thanksgiving Day . .

is here again and reminds us of all the favors which have been ours to enjoy the past year, and we are indeed thankful for it all. We are glad that we have had the privilege of serving you, and trust that we shall continue to merit your patronage and good will.

Announcing -

The Outstanding Chevrolet of Chevrolet History

- a Six in the price range of the four!

The Chevrolet Motor Company announces The Outstanding Chevrolet of Chevrolet History... a Six in the price range of the four!

Spectacular as Chevrolet's achievements have been in the past... notable as its engineering triumphs have proved themselves to be—this remarkable new car dwarfs every previous Chevrolet accomplishment. Not only does it introduce into the low-priced field an entirely new measure of performance, comfort, beauty and style—but it is sold at prices so low as to alter every previous conception of motor car value.

The new six-cylinder valve-in-head engine—developed from more than a hundred motors designed especially for this sensational car—stands out as an engineering masterpiece. With a power increase of approximately 32% over the previous Chevrolet motor, with sensationally greater speed, and faster acceleration—it offers a type of performance that is literally astounding... even to those who have been driving cars costing hundreds of dollars more.

Throughout the entire speed range, it performs with a smoothness and quietness of operation that have never before been approached in a low-priced automobile. At the slower speeds of city traffic it idles along with wonderful silence and ease. On boulevards and country roads it responds with an eagerness that is a constant delight. It takes the longest and steepest hills with an abundant reserve of power that is a source of pride to the driver. And its economy of operation

averages better than 20 miles to the gallon of gasoline!

This revolutionary performance has been achieved as a result of the greatest array of engineering advancements that Chevrolet has ever announced. A high compression, non-detonating cylinder head... a new heavier crankshaft, statically and dynamically balanced... automatic lubrication of the entire rocker arm mechanism... semi-automatic spark control... hot-spot manifold... gasoline pump and filter... new and larger carburetor, with automatic acceleration pump and improved venturi choke... fabric camshaft gear... heavier driving gears... heavier differential gears... improved crankcase breathing system... improved lubrication... new 4-wheel brakes that are powerful, safe and quiet under all conditions—these indicate the importance of a group of engineering advancements that embrace every major unit of the entire chassis.

In appearance, this Outstanding Chevrolet is destined to become an automotive sensation—so smart, so stylish and so distinctively appointed that it rivals the costliest custom creations. The new Fisher bodies are longer, lower and roomier with an adjustable driver's seat in all closed models—and reveal the matchless artistry of Fisher designers. With their modish new colors, their smart dual mouldings and their distinctive concave pillars, they achieve a degree of original beauty that has seldom been equalled in motor car design.

You are cordially invited to visit our showroom and secure complete and detailed information on this sensational new car which will be ready for delivery beginning January 1st.

"A Safe Place To Trade"

To All Atwater Kent Distributors:

I take great pleasure in announcing that I have just turned over the first spadeful of earth for construction on new factory which will double the size and capacity of our present plant. This addition will expand our present manufacturing area from sixteen and one half to thirty and one quarter acres and is made necessary in order to meet steadily mounting public demand for Atwater Kent sets and speakers. Buyers' demands this fall greatly exceeded production capacity of present plant, in spite of the fact that we are turning out eight thousand sets per day.

My belief that future of Radio is even greater than past or present has caused me to take this important step in order to be ready for future business. New factory will be rushed to completion as soon as possible in order that it may be in production in ample time to meet next years needs of Radio users, which I believe will be greater than ever.

I know you will be glad to share with me gratification in substantial growth and soundness of our business and that with me you will be happy to look forward to a constantly expanding and even more beneficial future.

UNEMPLOYED TEACHERS AND COLLEGE STUDENTS, WHY DON'T YOU ENTER BUSINESS

There is a wonderful opportunity in business for the unemployed teacher or the college student who by force of circumstances had to drop out of college. Because of your unusual literary qualifications, business concerns prefer you. You make better office employees. No matter what your circumstances are, should have a business training; no matter what your circumstances are, you CAN have business training.

We have a novel yet simple plan that is helping hundreds of young people through our school—a plan that enables them to pay the greater portion of their expenses after they are placed on a business man's pay-roll.

No need to wait till after Christmas to begin because any one who desires may visit home at least ten days during the Christmas holidays. So, if you enter now, you will be just two months ahead of the fellow who waits until after Christmas to start.

You will be surprised at what we can do for just a few dollars and a few months of your time.

To learn of our plan, clip the coupon and mail it for our catalog, "Achieving Success in Business." No obligations on your part if you don't enter school.

We Texas Utilities Company

The new Ford has a very simple and effective lubrication system

THE lubrication system for the engine of the new Ford is as simple in principle as water running down-hill.

A gear pump in the bottom of the oil pan raises the oil to the valve chamber reservoir. From here it flows on to the main crankshaft bearings and the front camshaft bearing. Overflow oil drops into the oil pan tray and runs into troughs through which the connecting rods pass.

As the ends of these rods strike the oil they scoop up a supply for the connecting rod bearing. At the same time they set up a fine spray that lubricates the pistons and other moving parts.

From the tray the oil runs into the bottom of the pan, and is again drawn up through a fine mesh screen and pumped to the valve chamber.

This system is so effective that the five-quart contents of the oil pan pass through the pump twice in every mile when you are traveling at only 30 miles an hour. Yet there is only one movable part—the oil pump.

As a matter of fact, the lubrication system for the new Ford is so simple in design and so carefully made that it requires practically no service attention.

There is just one thing for you to do, but it is a very important thing... watch the oil! Change the oil every 500 miles and be sure the indicator rod never registers below low (L).

If the oil level is allowed to fall below low, the supply becomes insufficient to oil all parts as they should be oiled.

To insure best performance it is also advisable to have the chassis of your car lubricated every 500 miles. This has been made easy in the new Ford through the use of the high pressure grease gun system.

Proper oiling and greasing mean so much to the life of your car that they should not be neglected or carelessly done.

See your Ford dealer regularly. He is especially well-fitted to lubricate the new Ford and he will do a good, thorough job at a fair price.

FORD MOTOR COMPANY

THANKS FOLKS

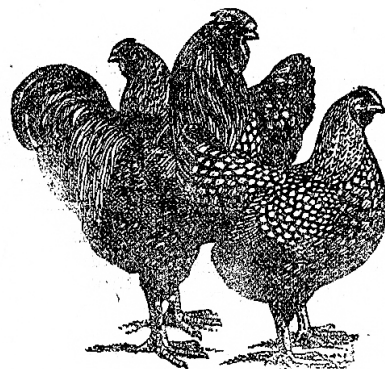

For Your Turkeys Through
The Thanksgiving Market

Christmas is Coming

Now, Listen Folks: Feed to the limit, Corn and Fattening Mash. Help us put out the best Turkeys Texas produces. Weather in your favor, feed heavy and swell your Turkey Checks. Those not raising turkeys should NOW Select the Best Stock from their neighbors' flocks. Let's everybody raise from 50 to 500 turkeys in the year 1929. Arrange with your banker to help you in securing a start of turkeys. In other words we suggest let your turkeys, chickens, and dairy products be your money crops, and let your surplus feed crops be your pin money. Suppose we try this for a period of say Five Years, and see how we like it. What You Say?

Again we thank you for your liberal co-operation in helping us put over our modern dressing plant operations. And do not forget us on the Christmas market.

THE ROAD TO HEALTH

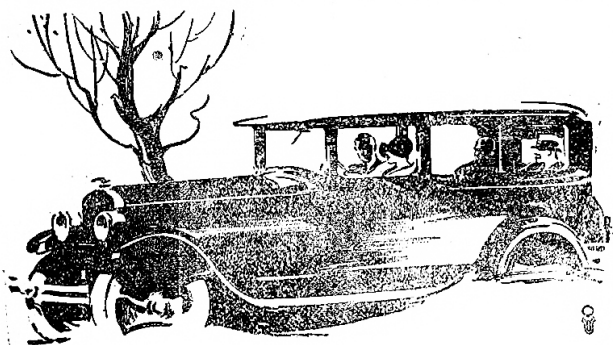

To Whom this may concern:

This is to certify that I was a suffer of appendicitis and was in a serious condition, there was two Doctors in Brownwood told me I would have to have an operation, that my appendix had all ready burst. My Father and Mother, Mr. and Mrs. John Ham of Cross Plains came to me. My Mother said I am going to take her home, and those Doctors told her if she did it would kill her but they brought me to Cross Plains to Dr. Shoultz. I have taken six treatments and can frankly say that I am free from pain and sorrow, haven't had any soreness since the third treatment. Dr. Shoultz told me to eat anything that I wanted. When I came to him I was living on Soup and had been in bed for about ten days.

I am going home tomorrow feeling fine and I can't tell you how I appreciate what he has done for me, and I earnestly recommend Dr. Shoultz to all suffering Humanity.

Who will pay \$25.00 for \$225.00 equity in a good Player Piano. Balance can be paid \$15.00 per month with 8 per cent interest write me care Box 401 Cross Plains, Texas.

J. E. HENKEL

Messrs. H. O. Lambert and Chas. Ingram of San Jose, Calif., and Mrs. H. A. Whorter of Baird, were guests of Mr. and Mrs. Fred Cutbirth the first of the week.

Mr. and Mrs. Polbert Nickols, and Mr. and Mrs. Ellis Nickols are hunting about ninety miles below San Antonio. Mrs. Booth went as far as San Antonio with them.

Mr. Hollin of Dublin is working for Mr. Ellis Nickols at Clark's Grocery.

Mr. and Mrs. Desmond Conner of Coleman spent Sunday with Mr. and Mrs. Foster Bond. Mrs. Conner will be remembered as Pauline Bond.

Mrs. R. A. Dearer of Dallas, and Mr. and Mrs. Frank Green motored to Ranger Saturday.

THANKS

We the Parent Teacher's Association take this means of thanking the people of Cross Plains for their liberal contributions to our Harvest Carnival of November the twenty-second. We intend to use the money to buy playground equipment to serve the most children.

The Bridge Club met Tuesday at the home of Mrs. Russell McGowen. Out of town guests were: Mmes. Burt King, and Roy Townsend of Stamford.

Mr. and Mrs. Roy Townsend and Mr. and Mrs. Burt King of Stamford were the guests the first part of the week of Mr. and Mrs. Marion Harvey. Messrs. Arch Frazer and E. A. Ungren spent Tuesday night in the Harvey home also.

Mrs. H. A. Hemphill, and Mr. and Mrs. Willard Kemplin and others, of Gainesville spent several days with Mr. and Mrs. Chas. Hemphill.

Budge Baum of Coleman spent the week end with his parents, Mr. and Mrs. Joe Baum. Brown Baum returned to Coleman with Budge, where he will start to work.

Joseph Francis of the Lotief Dry Goods Co., attended the wedding of his niece, Miss Julia Kernas, at Tyler last week.

Mrs. H. F. Rigger and children spent a few days last week with W. C. Adams and family, then went hunting in Mason County.

Mr. and Mrs. J. D. Counlee, and Mr. and Mrs. Montgomery returned from a hunting trip and we are sorry to say they had poor luck.

Mr. and Mrs. Arch Gensley have returned from Ballinger to Cross Plains. Mr. Gensley has been operating a Helly Sely store in Ballinger, but sold it recently. He formerly owned and operated the Toggery in Cross Plains. He traded the Toggery to E. N. Mosley for a farm a short time after going to Ballinger, and Mr. Mosley has recently closed out the Toggery, the building now being vacant. Mr. Gensley may again engage in some line of business in Cross Plains.

F. M. Windham and E. M. Long of Byrds were business visitors here Monday.

George Herring who is connected with the Texas Pipe Line Co. of Wink was in Cross Plains Wednesday. George is on his vacation before being transferred to Wink, he was living in Putnam.

THE C. P. H. BUFFALOES HAD A CLOSE GAME BY SCORES

The Strawn Greyhounds held the Purple and Gold to an 18 to 18 tie at Murphy Field, Friday, Nov. 23. The playing at times was fierce and at other times the game was dull. The Buffaloes deserved to win, out playing the visitors at every stage of the game.

One half of the Greyhound team composed of Capt. "Red" Stewart, made two long runs for touchdown, when he happened to get the ball with no one in front of him. The other touchdown came when Lovera, returned a Kick-off for seventy yards.

CROSS PLAINS TOUCHDOWN
The first Purple and Gold Touchdown came after Strawn made their first counter, then the Buffaloes received the ball on their own 40 yard line, and returned it ten yards, and with passes and line plunges, the ball was found on the Greyhound 35 yard line. A pass from Bennett to Murry put the ball on 5 yard line, Bennett bucked it over for the first touchdown.

The Second Purple and Gold touchdown came when Murry bucked line for a seventy yard run for the counter. The other was made by steady line plunges, which made from 1 to 5 yards a buck. Rex "Speedy" Clark failed to make any touchdowms on long end runs, but held up his part on the line plunges, stepping one over for the third touchdown.

The Buffalo club, working as smoothly as a machine, clicked off yard after yard on line plunges, but the Strawn team did not do so well they made only 10 first downs. After the first quarter they made touchdowms on breaks not by straight football.

Big "Red" Stewart was almost the whole show for the Greyhounds. He was the hardest and cleanest player that ever visited Cross Plains, also the whole Greyhound team was one of the cleanest sports that ever played on the Murphy field.

NO GAME WITH BAIRD
The Buffaloes have repeatedly tried to secure a game with the Baird Cubs, this season, but have not been successful. The Baird players acknowledge that they are afraid of the POWERFUL Purple and Gold Team.

The Buffaloes are undisputed Champions of Callahan County. They defeated Clyde and Clyde defeated Baird and Putnam, these teams are the only ones of importance in Callahan County.

Davis, Harlow and Maddux the regular Buffaloes were unable to start against the Greyhounds. Mays received a badly injury to his eye, and was not able to play all the game. These Buffaloes will be alright against Rising Star Dec. 7.

SLY SAYING OF THE BUFFALOES
In the game Friday, after T. Murry made his 70 yard run through Fat Clark playing right tackle, Adams remarked to Fat the Buffalo tackle "where were you that play?" Fat Clark replied, "I was busy running interference for the Greyhounds."

Some of the Buffaloes asked Mayes who has the bad eye, would he be able to play against Rising Star, he answered the question by saying I would play if I had my leg broke.

Branded with the "Devils Trademark" yet see how this woman saved her soul. A picture that will stay in your memory forever.
ALSO A GOOD COMEDY AND FREE CHINA WARE DAY

Ring Wear

Honing is often satisfactory for .0025, .003 and .005 Standard Oversizes. For larger Standard Oversizes, honing alone is seldom economical and efficient. When the ring wear is greater than .005 we recommend STORMIZING, as honing alone cannot be depended upon to keep walls perpendicular to crankshaft.

The walls of the cylinders are amply heavy to stand two borings. .075 to .125 can be removed with safety, as the average thickness of a cylinder wall is approximately .250 or ¼ of an inch to .312 or 5/16 of an inch, and removing metal enough to barely clean up the worn area of the cylinder will not weaken the wall to any extent. Two borings can be accomplished in most cases by removing .020 to .030 of metal.

Brown Mule Batteries

We carry full line of Brown Mule Batteries, also Re-charging, Rebuilding and overhauling of all kind.
